PROVIDING OUR EXPERIENCE

At Foureva Productions we hear way too many horror stories on speakers hiring videographers. The troubles range from getting footage back that is unusable, not understanding the pricing, not having a video resource, or not receiving you're footage at all. It's unacceptable that your business has to deal with these unnecessary set backs.

Our BOOKING SERVICE will interview your video talent anywhere you go to make sure that your video is getting captured with care and quality! We will represent your brand, so you can have the confidence that your presentation/keynote is getting captured the right way. When you work so hard to get booked at an amazing opportunity, you can't AFFORD to have someone mishandle capturing that moment. Even if you don't end up paying for bad footage... it cost you.

With our experience in video production we will interview, select, and book the video talent. We will enforce our quality and standards to ensure the video talent delivers a polished product.
